Legal Principles of the German Educational System

According to our „Constitution“ the
Basic Law of the Federal Republic of Germany
(Grundgesetz)

All educational issues are decided by the
individual Federal State autonomously

Responsibilities of

Federal Republic of Germany

- creating common frameworks in all questions of education (school examinations, university entrance requirements, professional training in companies)
- framework of curricula in vocational education
- framework and basic principles of university education
- scientific and technological research

The Federal States (Laender)

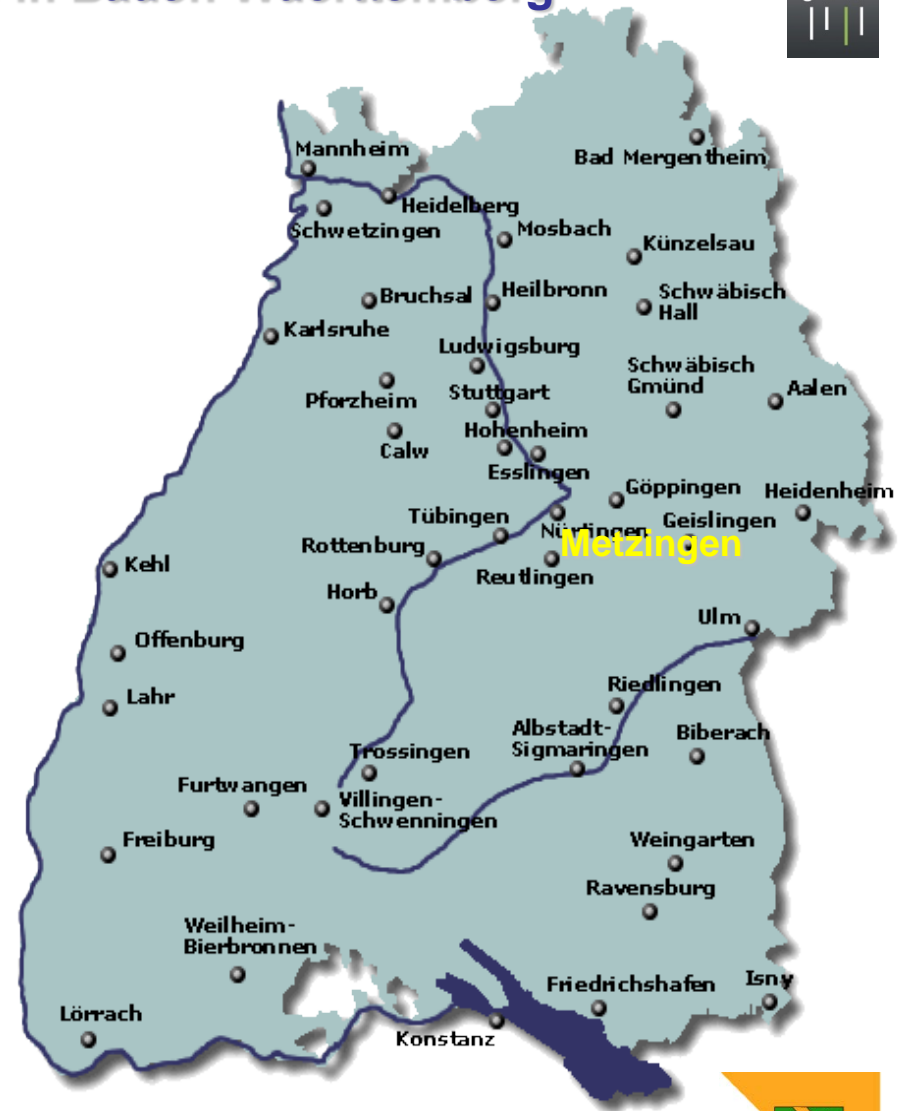

- it is up to the individual state to implement an educational framework of the Federal Republic of Germany
- general framework is agreed upon by the educational ministers in the Standing Conference of Ministers of Education

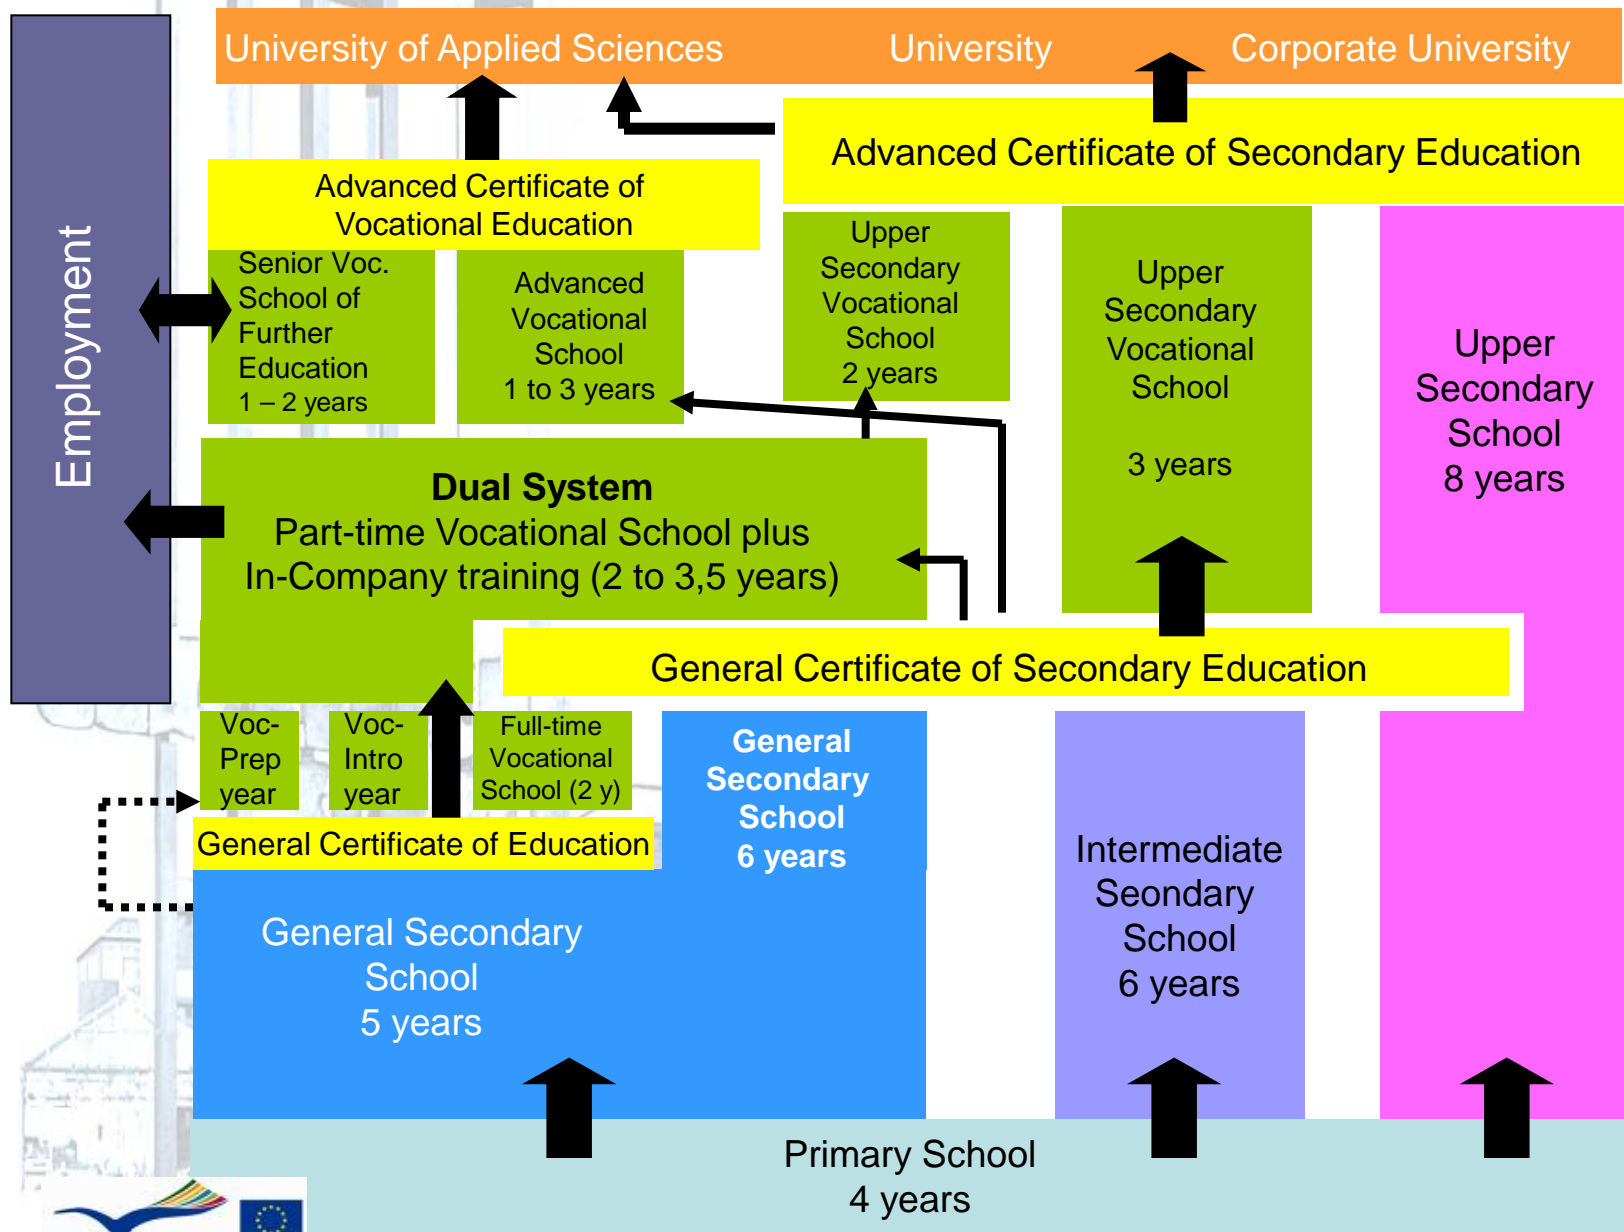

Secondary Education in Baden-Wuerttemberg

- Compulsory education
(up to the age of 18)
- Pupils/students
 - a total of 1.7 Mio.
 - in Vocational Education 360.000
 - 200.000 apprentices in the Dual System
 - 150.000 in full-time vocational education
- 300 vocational colleges

Dual System of Vocational Training within Industry and Vocational Training Institute

Application for **apprenticeship** directly to the companies
(the Careers Advice Service helps in finding trainee placements)

Prerequisites: there are no statutory requirements for a school-leaving certificate. However admission to the training places varies depending on individual circumstances eg. demands of companies

Training within industry:

- by trainers and foreman/supervisors in accordance with German federal training regulations
- 3 to 4 days a week
- wages for the apprentices paid by companies between € 300,-- and € 1.000,-- per month depending on occupation
- legal basis: German federal training regulations

Training within Vocational College:

- theoretical, practical and general subjects taught by specialised lecturers and instructors
- 1 to 2 days a week or some block teaching sessions
- co-ordination of curricula to the statutory training regulations
- legal basis: education acts, regulations and curricula of the different German federal states

Examinations: (after 2 – 3 1/2 years of training)

set jointly by an examination board with members of Vocational Colleges, Chambers of Industry and Commerce or Chambers of Trade and Craftsmanship
